FPC's touch fingerprint sensor FPC1021 in Gionee's smartphone Elife E8

On June 10, Gionee announced its Android smartphone Elife E8, featuring FPC's touch fingerprint sensor FPC1021. The order value of this phone launch is included in FPC's communicated revenue guidance of + 1 500 MSEK for 2015

Jörgen Lantto, CEO of FPC, comments: *"Gionee is a leading smartphone manufacturer in China and we are proud that Gionee selected FPC1021 for its first smartphone with a touch fingerprint sensor, the Elife E8, following up on the Gionee T1 phone launch in 2014 with FPC's swipe sensor. FPC1021 supports 360 degree finger rotation capability, fast response time and industry leading 3D image quality".*

About Fingerprint Cards AB (publ)

Fingerprint Cards AB (FPC) is a high tech and listed company which develops, produces and markets biometric technology that through the analysis and matching of an individual's unique fingerprint verify the person's identity. A secure and convenient user experience is thus made possible, beyond keys and pins. The FPC technology offers world class advantages and include unique image quality, extreme robustness, low power

consumption and complete biometric systems. With these advantages and in combination with low production costs the technology may be implemented in large volume products as smartphones, tablets and biometric cards where these demands are extremely high. FPC's technology have user cases from a number of applications.

Fingerprint Cards AB (publ) discloses this information pursuant to the Swedish Securities Market Act (2007:528) and the Swedish Financial Instruments Trading Act (1991:980). The information was issued for publication on June 12, 2015, at 10:30 a.m.
