FPC receives order for touch fingerprint sensors of 375 MSEK

Fingerprint Cards has received an order of 375 MSEK including all touch fingerprint sensors in the company's portfolio from one of its module partners in Asia. Deliveries are planned to mainly take place during the third quarter 2015. The sensors will be used by smartphone manufacturers in Asia.

Jörgen Lantto, CEO of FPC, comments: *"This order is another evidence of the growing interest from smartphone OEMs in integrating touch fingerprint sensors in their devices, and that FPC has a very strong position in this market thanks to our leading technology and broad product portfolio"*.

About Fingerprint Cards AB (publ)

Fingerprint Cards AB (FPC) is a high tech and listed company which develops, produces and markets biometric technology that through the analysis and matching of an individual's unique fingerprint verify the person's identity. A secure and convenient user experience is thus made possible, beyond keys and pins. The FPC technology offers world class advantages and include unique image quality, extreme robustness, low power

consumption and complete biometric systems. With these advantages and in combination with low production costs the technology may be implemented in large volume products as smartphones, tablets and biometric cards where these demands are extremely high. FPC's technology have user cases from a number of applications.

Fingerprint Cards AB (publ) discloses this information pursuant to the Swedish Securities Market Act (2007:528) and the Swedish Financial Instruments Trading Act (1991:980). The information was issued for publication on June 16, 2015, at 8:00 a.m.
