

Press release, Gothenburg
June 2, 2016

Fingerprint Cards appoints new CEO

Fingerprint Cards' (FPC) Board of Directors has today appointed Christian Fredrikson as new CEO, starting from August 2016. Christian Fredrikson is today CEO for Finnish company F-Secure. Jörgen Lantto remains in his role as CEO until Christian Fredrikson enter upon his duties.

FPC has begun adapting fingerprint sensors into new market areas such as smart cards and Internet of Things. Hence, the aim is to strengthen the company's organization in order to execute the strategy in the best way possible, and that is one reason why the Board considers it advisable to appoint a new CEO.

Before his role as CEO at F-Secure, Christian Fredrikson had several leading positions within Nokia Networks. He is an inspiring and visionary leader with strong engineering know-how, in areas FPC needs for future growth. He brings with him experience that includes real-time security for digital ecosystems, cloud technology and mobile solutions, as well as experience from the Asian markets.

During 2015 FPC strengthened its market position within fingerprint sensors for smartphones and grew from a small company to one of the 30 largest companies on the Stockholm Stock Exchange. This places new demands on both the Board and the management and it is also one reason to why the Board now appoints a new CEO.

"Christian Fredrikson has long experience from the new markets we wish to expand towards, while he is also deeply rooted in digitalization and mobile connectivity. We believe he has the competence that is required to develop FPC into the future", says Jan Wäreby.

"I feel honoured and delighted to join FPC and to be given the opportunity to lead the company's strong team. It's fantastic to see what FPC has achieved and I look forward to further strengthen the company, together with the team", says Christian Fredrikson.

Jörgen Lantto will remain as CEO until Christian Fredrikson has entered upon his duties, and will end his employment during autumn 2016.

"Jörgen has been responsible for FPC's operations in an admirable way. With his solid technical skills within the smartphone area he has strongly contributed to developing the company. We thank Jörgen Lantto for his important contribution during a period of strong growth and we are delighted that Jörgen's competence continues to benefit the company during the transition time", says Jan Wäreby, Chairman of the Board.

A press conference where this change will be commented, is held today, June 2, at 09.00 AM CET. The press conference can be followed at: <https://engage.vevent.com/index.jsp?eid=3483&seid=63>

To receive call in details for the press conference (media and analysts), please send an e-mail to malin.strandvall@fingerprints.com.

Opportunities for individual interviews will also be offered in conjunction with the press conference.
