**NOMINATION COMMITTEE**

The AGM 2020 resolved that the Company is to have a Nomination Committee comprising four (4) members. During the year, the Chairman of the Board is to convene a meeting of the three (3) largest shareholders of the Company in terms of voting power and ask them to each appoint one representative who, in addition to the Chairman of the Board, will constitute members of the Nomination Committee. Should one of the three largest shareholders choose to waive their right to appoint a representative of the Nomination Committee, the shareholder who is next in line in terms of size is to be given an opportunity to appoint a member of the Nomination Committee. The Nomination Committee may also decide, if this is regarded as appropriate, to appoint an additional representative of a group of major shareholders as a co-opted member of the Nomination Committee.

The Chairman of the Board is to convene the first meeting of the Nomination Committee. The member representing the largest shareholder in terms of voting power is to be appointed Chairman of the Nomination Committee, unless the members agree otherwise. The term of office of those appointed to the Nomination Committee extends until such time as a new Nomination Committee is appointed. The composition of the Nomination Committee is to be disclosed no later than six months before the AGM.

The Nomination Committee is to be constituted based on the largest shareholders in terms of voting power registered for the holder or known in some other manner as per the last banking day in August. If one or several of the shareholders who have appointed members of the Nomination Committee no longer belong to the three largest shareholders, their representative/s is/are to step down, whereupon the/those shareholder/s who has/have been added to three largest shareholders will be entitled to appoint a new representative. However, marginal changes that have occurred in the number of voting rights need not be taken into account, assuming that no special circumstances prevail.

If a member steps down from the Nomination Committee before its work has been completed, the Nomination Committee is to urge the shareholder who appointed such a member to appoint a new representative to the Nomination Committee without undue delay. Should this shareholder refrain from appointing a new representative, the right to appoint a new member of the Nomination Committee will accrue to the next largest shareholder in terms of voting power who is not represented on the Nomination Committee. Any changes to the composition of the Nomination Committee must be disclosed as soon as they occur.

The Nomination Committee is to draft proposals on the following issues for resolution by the 2021 AGM:

- proposal concerning Chairman of the Meeting
- proposal concerning Chairman of the Board
- proposal concerning members of the Board
- proposal concerning auditor
- proposal concerning remuneration of Board members
- proposal concerning remuneration of the auditor

WORK OF THE NOMINATION COMMITTEE FOR THE AGM 2021
For the AGM 2021, the Nomination Committee held three meetings, maintained regular intervening contact on various Nomination Committee matters and held meetings with candidates for Directorships. A Board evaluation was conducted through the Directors responding to a number of questions. The responses were compiled and presented by the Chairman of the Board, and discussed within the Board of Directors. Subsequently, in order to make an accurate assessment on matters regarding the composition of the Board of Directors, the Nomination Committee read and reviewed the Board evaluation and the work of the Board of Directors, as well as the Chairman of the Board’s report on the company’s operations, objectives and strategies, jointly with the Chairman of the Board. The Nomination Committee also analyzed the competence and experience of the Directors, and their gender division, and compared them with identified needs. The Nomination Committee’s opinion is that the Directors possess considerable breadth and extensive experience of activities including business operations, technology, the financial markets, telecom and IT, and of the semiconductor industry. The Board of Directors currently consists of six men and one woman. The Nomination Committee strives to achieve an even gender balance on the Board of Directors. The Nomination Committee applies point 4.1 of the Code as its Diversity Policy, and continuously strives to satisfy the Code’s standards for diversity, breadth and gender balance on the Board of Directors. The Nomination Committee also had several contacts with the Audit Committee regarding the Audit Committee’s recommendations on the election of an auditor.

BOARD OF DIRECTORS AND CEO
Pursuant to the Articles of Association, Fingerprints’ Board of Directors is to consist of four to ten Directors with a maximum of five deputies elected by the AGM for the period until the end of the following AGM. The Board of Directors and the Chairman of the Board are appointed at each AGM for the period until the following AGM, and accordingly, their term of office is one year.

Apart from the AGM, changes to the Board of Directors can be executed through an EGM resolution or by a Director choosing to resign his or her appointment in advance.

The AGM 2020 resolved to re-elect Sofia Bertling, Johan Carlström, Ted Elvhage, Alexander Kotsinas, Tomas Mikaelsson, Dimitrij Titov and Juan Vallejo as Directors. Johan Carlström was elected as Chairman of the Board.

In the Nomination Committee’s opinion, seven Directors of the Board are independent of the Company and management. Six Directors are independent of major shareholders. Accordingly, the Board of Directors satisfies the independence requirements stipulated by the Code.

The Board of Directors is responsible for Fingerprints’ organization and administration, in the interests of both the company and its shareholders. The Board must regularly evaluate Fingerprints’ financial situation and ensure that Fingerprints is organized so that its accounting, management of funds and the company’s other accounting circumstances are controlled satisfactorily. The Board appoints the CEO and decides on issues regarding strategic direction of operations and the company’s overall organization.

Each year, the Board adopts written Rules of Procedure that formalize the work of the Board and its internal segregation of duties, decision-making within the Board, the Board’s meeting schedule and the duties of the Chairman. In addition, the Board has issued documents including written instructions regarding the segregation of duties between the Board and the CEO.

The Board also approves policies and instructions for operating activities. Operating activities are managed by the CEO. The CEO regularly provides the Board with information on events that are significant to the company’s progress, results, financial position, liquidity or other information of such significance that the Board should be informed of. The Directors are presented on pages 49-50.

WORK OF THE BOARD OF DIRECTORS IN 2020
Pursuant to the current Articles of Association, the Board of Directors must meet on at least four scheduled occasions and one
statutory meeting per year. Additional meetings can be held as required.

In 2020, there were 19 Board meetings. Scheduled agenda items at Board meetings during the year are Group Management’s reporting of business conditions, operations, organizational resources, results of operations, financial position and liquidity. Special Board meetings with a focus on strategy are held in the spring and autumn. During the autumn, and before Christmas, Board meetings consider the budget and business plan for the following year.

Board meetings are held quarterly to reach decisions on publications of interim, half-year and annual financial statements. Meetings to decide on convening notice, annual accounts, corporate governance documentation and other matters for business are held prior to AGMs. Senior executives of Fingerprint participate in Board meetings as required.

REMEMERATION COMMITTEE
The Remuneration Committee evaluates and consults on matters regarding remuneration and employment terms, and makes proposals and guidelines for remuneration of the CEO and senior executives for approval by the AGM. The Remuneration Committee must ensure that remuneration is commensurate with prevailing market conditions for corresponding executives in other companies, and accordingly, that the company’s offering to its employees is competitive. The CEO’s remuneration is approved by the Board.

Remuneration of other senior executives is decided by the CEO after consulting with the Remuneration Committee. In 2020, the Remuneration Committee’s members were the Directors Juan Vallejo (Chairman), Sofia Bertling, and Ted Elvhage. During the fiscal year 2020, the Remuneration Committee met on three occasions.

AUDIT COMMITTEE
The Audit Committee’s duty is to support the Board on ensuring high quality and efficiency within internal controls, financial reporting and external audits. This includes reviewing interim reports and annual financial statements prior to publication, and considering all critical accounting issues and judgments regarding assessments of risk. The Audit Committee meets the external auditor at least once per year and reviews and monitors the auditors’ impartiality and independence, and identifies particularly whether the auditor is supporting the company on other services than auditing, and also provides support on proposals for AGM resolution and election of auditors.

In 2020, the Audit Committee’s members were the Directors Alexander Kotsinas (Chairman), Johan Carlström and Dimitrij Titov. During the fiscal year 2020, the Audit Committee met on four occasions.

AUDITOR
The Articles of Association stipulate that Fingerprint must have one or two auditors with or without deputies, or one or two registered public accounting firms. The AGM 2020 re-elected MOORE KLN AB as auditor until the AGM 2021. MOORE KLN AB appointed Ulf Lindesson as Auditor in Charge. The duty of the auditor is to examine the company’s annual accounts and accounting records, and the Board of Directors’ and CEO’s administration on behalf of the shareholders. The auditor also conducts a summary review of one quarterly financial statement and issues opinions regarding the Board of Directors’ reporting in connection with such events as new share issues and decisions on warrant programs. Each year, the Board of Directors meets the auditor for a report on whether the company’s organizational resources are structured so that bookkeeping, the management of funds and other circumstances can be controlled satisfactorily. The auditor has continuous contact with the Audit Committee and participates in at least one of the Audit Committee’s meetings during the financial year. The auditor attended the 2020 AGM on May 26.

INTERNAL CONTROLS AND RISK MANAGEMENT
The Swedish Annual Accounts Act stipulates that the Board of Directors shall submit a review of the material elements of the company’s systems for internal control and risk management over financial reporting yearly.

The Board of Directors is responsible for the company’s internal controls, whose overall purpose is to ensure protection of the company’s assets, and thus its owners’ investments. The Board of Directors has adopted attestation instructions, a finance policy and other policy documents comprising instructions and procedures for operations that must be monitored regularly and reported. The attestation instructions include instructions regarding company signatories as well as roles and authorizations regarding decision making and the approval of agreements, investments, expenses and other expenditure. The Finance Policy sets mandates for investments, management of liquidity, currency hedging and credit issuance on sales. Sales are subject to credit insurance as far as possible, when this is viable and where credit insurance is granted only if there are good grounds to expect the borrower to fulfill its commitments.
CONTROL ENVIRONMENT
The fundamental control environment for financial reporting consists of guidelines and policy documents, including the Board of Directors’ Rules of Procedure and instructions for the CEO, and the segregation of duties and authorization regarding the organization of operations. Primarily, it is the CEO’s responsibility to establish in daily operations the control environment instructed by the Board of Directors. The CEO reports regularly to the Board according to established procedures. The auditor also submits reports from audits conducted.

RISK ASSESSMENT
Risk assessment is an ongoing process encompassing the identification and management of risks that can impact operations and financial reporting. The primary risk within the auspices of financial reporting consists of material misstatement in accounting. Risk management is a part of operational processes and various methodologies are applied to ensure that risks are managed pursuant to regulation, instructions and procedures with the aim of making accurate disclosures.

CONTROL ACTIVITIES
Control activities are designed to manage the risks that the Board and company management consider material to internal controls of financial reporting. Control activities designed to prevent, discover and rectify misstatement and deviations are evaluated. The segregation of duties and organization constitutes the structure for controls. Follow-ups are conducted within each area of responsibility, and across all operations. Approvals and the segregation of authorization constitute the structure of control activities, as do clear rules for decisions regarding investments, sales, procurement and contracts. Control activities also proceed from the business concept, strategies and objectives, and mission-critical activities. A high level of IT security is a prerequisite for good internal controls over financial reporting. Fingerprints’ IT strategy emphasizes security and functionality, with security being more important because without security, functionality is compromised.

External financial reporting with the ensuing controls is conducted on a quarterly basis, and internal financial reporting on a monthly basis. Financial controls are based on business plans that are broken down to yearly budgets. Budgets are reviewed throughout the year and constitute forecasts and supporting data for monitoring against results achieved. Reporting involves analyses and comments on progress in relation to established objectives. Development projects are managed through ongoing project.

Operational control is supplemented by monitoring of the quality and performance of suppliers, customers and internal processes.

Monitoring of liquidity and cash flow is conducted on an ongoing basis with updates of forecasts and the resulting liquidity planning. The continuous analysis of financial reports at various levels is central for ensuring that financial reporting does not contain material misstatement. Control activities and the division of various functions are embedded throughout the financial reporting process.
