FINGERPRINT CARDS SUPPLIER CODE OF CONDUCT

Fingerprint Cards (FPC) as a company is committed to ethical business practices and we hold our suppliers to the same high standards. It is FPC's policy to comply with all applicable laws and regulations of the countries and regions in which we operate and to conduct our business activities in an honest and ethical manner. This Supplier Code of Conduct is a supplement to our general Code of Conduct, which declares that FPC expects its suppliers to uphold the policies of FPC concerning compliance with all applicable law, respect for human rights, environmental protection, resource efficiency and the safety of products and services.

The aim with this Supplier Code of Conduct is to address our suppliers, concerning the topics relevant in the supply chain of our products. FPC believes that the Electronic Industry Citizenship Coalition (EICC) Code of Conduct serves as a good base for FPC's suppliers to conduct their business in a socially responsible manner and to meet the above expectations of FPC.

FPC hereby requires all suppliers to adopt the latest version of the EICC Code of Conduct. The Code includes requirements on participants ("Participant") of EICC. These participant requirements shall be supported even though the supplier is not a participant of EICC. It is expected that a supplier complies with the latest updates of a new version of the Code at least six months after it is published on the EICC web pages.

The supplier is expected to demonstrate compliance with this code upon request by FPC and cooperate in on-site audits and assessments.
