## FPC's touch fingerprint sensor FPC1025 in Huawei Mate S and G8 smartphones

Yesterday, Huawei announced its Android smartphones Huawei Mate S and G8, featuring FPC's touch fingerprint sensor FPC1025\*.

Jörgen Lantto, CEO of FPC, comments: "Huawei is a leading global smartphone manufacturer and we are proud that Huawei selected FPC1025 for Huawei Mate S and G8, following up on the great success of Ascend Mate 7 embedding FPC1020, Honor 7 and MaiMang 4 both embedding FPC1025 and recently Honor 7i embedding FPC1145. FPC1025 supports 360 degree finger rotation capability, fast response time and industry leading 3D image quality".

### About Fingerprint Cards AB (publ)

Fingerprint Cards AB (FPC) is a high tech and listed company which develops, produces and markets biometric technology that through the analysis and matching of an individual's unique fingerprint verify the person's identity. A secure and convenient user experience is thus made possible, beyond keys and pins. The FPC technology offers world class advantages and include unique image quality, extreme robustness, low power

consumption and complete biometric systems. With these advantages and in combination with low production costs the technology may be implemented in large volume products as smartphones, tablets and biometric cards where these demands are extremely high. FPC's technology have user cases from a number of applications.

The information was issued for publication on September 3, 2015, at 10.30 a.m.
