FPC's touch fingerprint sensor FPC1245 in Xiaomi smartphone Mi5

Today Xiaomi announced their flagship smartphone model Mi5 featuring FPC's touch fingerprint sensor FPC1245. Already received as well as expected revenues in 2016 that relate to sales of FPC1245 for this smartphone model are included in FPC's communicated revenue guidance of 7,000-8,500 MSEK for 2016.

Jörgen Lantto, CEO of FPC, comments: "Xiaomi is a leading global smartphone manufacturer and we are proud that Xiaomi selected FPC1245 for Mi5, following the successful launch of Redmi Note 3 in 2015, using FPC1035. FPC1245 supports ceramic coating as well as 360 degree finger rotation capability, fast response time and industry leading 3D image quality".

About Fingerprint Cards AB (publ)

Fingerprint Cards AB (FPC) is a high tech and listed company which develops, produces and markets biometric technology that through the analysis and matching of an individual's unique fingerprint verify the person's identity. A secure and convenient user experience is thus made possible, beyond keys and pins. The FPC technology offers world class advantages and include unique image quality, extreme robustness, low power

consumption and complete biometric systems. With these advantages and in combination with low production costs the technology may be implemented in large volume products as smartphones, tablets and biometric cards where these demands are extremely high. FPC's technology have user cases from a number of applications.
